

# MEMBERSHIP APPLICATION

The Steel Plant Museum of Western New York (SPM) was founded in 1984. Our mission is to preserve various regional steel industry artifacts, and use them to inform the public about this once-great industry. We accomplish this through educational displays and lectures, and by maintaining a research library and archives. The SPM is always seeking new members, not only for financial support, but to assist with a variety of duties and projects. Membership is open to anyone, not just those with a connection to the steel industry! The SPM is a nonprofit 501(c)(3) educational organization, and all donations are tax-deductible, to the fullest extent of the law.

*The following SPM membership levels are available, and include our **I-Beam** newsletter:*
